Cut Out Diameter	4 5/8"	Cut Out Diameter	5 5/8"
Mounting Depth	2"	Mounting Depth	2 ½"

Most speaker damage occurs as a result of amplifier distortion also known as "Clipping". Clipping occurs when an amp is driven beyond its maximum rated output. This kind of distortion can be hard to hear unless you know what to listen for. Any time you hear a harsh ear piercing sound at hi volume your amp is probably clipping.
